

Zenoss Event Management Workshop

Zenoss provides comprehensive Open Source network and systems management.

Zenoss event console

Zenoss network map

The purpose of this workshop is to understand the underlying architecture of the Zenoss events subsystem, by completing a series of exercises designed to demonstrate many of the more subtle features of Zenoss. The workshop aims for at least 80% hands-on time. The material is based on the Zenoss Event Management paper, freely available at http://www.skills-1st.co.uk/papers/jane/zenoss_event_management_paper.pdf.

It is assumed that the participant starts with at least an overview knowledge of Zenoss. By the end of the workshop, participants should have a thorough understanding of Zenoss events and a large number of working examples.

Workshop contents (3 days):

- Zenoss event architecture
- Events generated by Zenoss
- Syslog events
- Managing Windows event logs
- Zenoss event mapping
- Event transforms
- Zenoss and SNMP
- Automation through event commands
- Events, email alerts and Production Status

Workshop price: £1200 (excluding VAT) Location: UK, easy reach from Heathrow airport

For bookings, contact: office@skills-1st.co.uk Tel: +44 (0) 1628 782565
